"Free Turnpikes."

Wherever published some resolutions passed at a meeting of a few citizens of Bourbon County. The resolutions related to the free turnpike question, and the meeting resolved "to support no candidate for the Legislature who does not pledge himself to the interests of the system." The Bourbon News, in commenting on the subject, says:

"It is unjust in principle, and wholly impracticable theoretically. Suppose that a majority of the voters favored the project of passing a law forcing the County Court to place a valuation on the stocks at the various turnpike corporations and force the widows, minors and infant heirs as well as all others to take a stipulated price for their stocks—private property—would that be Democratic? Would that be just? We dare say that no reasonable man would say it would be. The theorists of the new scheme will probably say, 'Give them their price for their stocks.' This price is many in instances be fabulous; stocks that are now worth \$10 on the market, would be quoted at and above par. Would it be equitable towards the balance of the people who sold at a reasonable price to accede to the demands of the unreasonable? By what principle of justice could not be based, forcing the stockholders of the Paris Milling Company, the Kentucky Central Railroad, the Paris Hedge Company, or the Gray Spring Bed Bottom Manufacturing Company, or, in fact, any other corporate body to take a dictated price for the stocks forming the basis of their business? That would be equally as just and constitutional as to rob the turnpike corporations of their stocks."

"Barring the unconstitutionality and in justice of the scheme, it would bankrupt the county. It would open a large field for speculation and selfish favoritism. It would call around the necks of the people a boresomest restriction to more grinding and blood-sucking than the most notorious railroad system of taxation that can be conceived. It would be wholly inconsistent with the principles of individual rights and liberties with which these very same people so bitterly fought the recent railroad tax submitted before them for adoption."

"No, the free turnpike system will not do. The man who built the pike should be permitted to own them and collect such revenues as may be consistent with their character. These roads are luxuries to the people, and those who use them should pay for them. When the citizens of Paris ride out on this great network system of pikes over the county, they pay their toll like men and never kick. When they do not ride over them, they should not pay the tolls of hundreds who never use them a dollar for the construction of turnpikes."

"Did these men ever calculate the cost of taking the first steps towards the free pike system? We dare say they never would buy up the stocks. Then there would be a system of salaries offered—a notorious system of nepotism centering from the court house all through the county into the families and relatives of the lucky ones composing the County Court."

"The scheme would be tainted at the very outset and would grow in complexity and ugliness. It would be the most obnoxious and nauseating piece of business on earth. It would smell like one great engine of aggregated bad smells, the like of which could not be assembled on earth. The people would rise up in their indignity and hold their noses and revolt against the system, but what could they do? Could they reconsider and abolish it? Could they pass an act forcing the widows and orphans to take back their stocks at their selling price? We dare say they would be just as much equity in that act as the voracious wretch made them sell their stocks at that price."

"Why not take the earth and bend it to the people of the Little Rock precinct on a platter, anyhow? They appear to want it. They have had the county to bridge over Hinkley in three or four places, and built all the pikes they have asked for, and yet they are not satisfied. We advise them to sit down and cool off; we advise them from a broad standpoint and from cause to effect. Let the man who pays no poll tax pay his toll when he passes through any gate like other men."

COLONEL SAM. WALTON, of Lancaster, Ky., who declined the Ansonion convention, has been appointed Chief of Division in the First Controller's office at Washington, at a salary of \$1,800 a year.

The Louisville and Nashville Railroad Company has enjoyed the transfer of the Kentucky Union Railway to the parties who purchased it last week. The claim is made at Lexington that the transfer has already been effected and there is likely to follow a suit for damages.

MAJOR HENRY T. STANTON, of Frankfort, Kentucky, has been appointed by Secretary Lamar, of the Interior Department, a commissioner of the government to apportion lands in severity to Indians upon the Unstable Reservation in Oregon, and has left for Washington City to be sworn in. The pay is somewhere between \$3,000 and \$4,000 per year, with all personal expenses paid by the government.

The increase in the tobacco crop of Davies County, this State, has been something wonderful in the past three years. In 1885 the crop amounted to 3,719,473 pounds, in 1886, 5,733,620 pounds and in 1888, 13,263,450 pounds, an increase of more than 7,500,000 pounds in one year. This, too, when the price was low down. If the farmers want to sell high, just then go on increasing the crop. Of course.

Revenue Collections.

Below are given the collections by General James F. Robinson for the month of November. We have been unable to obtain the list sooner:

Spirits.....	\$ 45,095 50
Liquor.....	84 85
Cigarets.....	256 50
Uncollected.....	9 65
Tobacco.....	1,500 00
Special taxes.....	279 75
Total.....	\$ 47,175 25
June 18, 1888, to 1st of Oct. 1888.....	248,350 50
June 8, 1888, to June 18, 1888.....	2,422,109 14

Grand total.....\$ 2,670,454 89
This is the smallest collection that has been made in several years, from the fact that all the whisky for 1888 has been taken out of bond.

An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Peck & Co., and K. P. Campbell & Co., of Aberdeen Ohio.

Cattlemen Going to Washington.
SPRINGFIELD, Ill., Dec. 10.—The special committee appointed by the National Cattle Growers' association to visit Washington and urge upon congress the necessity for proper legislation for the purpose of protecting the cattle interests of the United States, left for Chicago next week and proceeded to the National capital in a body. The delegation consists of W. D. Smith, of Illinois; Ansel Ames, Jr., of Montana; Elmer Washburn, of Illinois; W. A. Tower, of Missouri; Thomas Sturgis, of Wyoming; S. C. Coffin, of Wyoming; H. E. Alford, of New York; and Edward Lloyd, of Maryland. The latter will join their colleagues in the east.

Indiana Horticultural Society.
COLUMBUS, Ind., Dec. 10.—The State Horticultural society met in this city, a large delegation being present. There was a handsome display of fruit, composed of the varieties best adapted to the climate. Among the visitors from abroad were Professor Johnson, president, and also director of the Philadelphia, Indiana; C. M. Hobbs, of Indianapolis; the Hon. F. B. Norbush, of Chester county; I. G. Kingsbury, of the Indiana Farmer; Daniel Cox, treasurer of the society, Coriamburg, Ind.; Hiram J. Ratcliff, of Richmond, Ind., president of Purdue university; Walter Ratcliff, of Purdue; G. W. McIntosh, of Orange county, and Dr. Furness, of Tillam, O., and the meeting is a grand success.

A Report Denied.
NEW YORK, Dec. 10.—The report that Dr. McElvyn will be deposed on account of his interest in politics during the Henry George campaign is a foolish one, as he can only be deposed on account of a breach in ecclesiastical discipline and he has committed no offense against the canon law. He can be transferred to another parish but will not be a Catholic clergyman laid at the idea of any action being taken by the church authorities in the matter. Father McElvyn was as enthusiastic a supporter in public of Cleveland in 1894 as he was of George this year, but the ecclesiastical authorities paid no attention to it. The rumor is base.

Short Stories Prevent a Sale.
St. JOHN, N. B., Dec. 10.—It has been found necessary to postpone the sale of the wrecked St. John ship because of the great stories told of the craft, which render it impossible for men to work on board. The ship is said to be haunted by the headless captain because of suspected and undiminished with the latter's wife.

Died From Fright.
FORT WAYNE, Ind., Dec. 10.—Ex-Councilman James Ryan, a prominent contractor, died yesterday morning, under peculiar circumstances. Tuesday while superintending the unloading of a huge stone weighing several tons, he was taking a walk away and the stone fell to the ground. Ryan, who was the captain because of suspected and undiminished with the latter's wife.

Electron Questions at Indianapolis.
INDIANAPOLIS, Dec. 10.—Senator Smith, acting as lieutenant governor, has been precluded to prevent Col. Robertson, recently elected to that office, from taking his seat. The case was opened yesterday. It will be appealed to the supreme by the losers on either side.

Funeral of Congressman Price.
ELIZABETH, N. J., Dec. 10.—The body of the late Congressman Price was buried yesterday. The funeral of the large residence were packed with people, and hundreds were unable to enter the house. Two hundred and fifty G. A. R. men formed at the court house and marched to the residence after the services to view the body. About sixty ex-members of the legislature were in attendance.

Jewels for Japan's Congress.

TUNE up the system by the use of Ayer's Sarsaparilla. It will make you feel like a new person. Thousands have found health and relief from suffering by the use of this most blood purifier when all other means failed.

Forty years' experience in every clime on earth has proved Ayer's Cherry Pectoral to be the most reliable remedy for coughs, colds, and all lung diseases. Neglected colds often become incurable ailments. Deal with them in time, and prevent their becoming deep-seated in the system.

Among the guests at Heller's European Hotel yesterday, was C. S. Hubbard, of Cincinnati. He is not a man of very striking appearance. The truth of the matter is he is a very ordinary looking individual, but he deserves more than a passing notice. If his claims are true, he is, and has been, a model man. He says he never swore an oath, never used tobacco in any form whatever, never took a drink of liquor of any kind, could not know one card from another, and never was in a gambling or sporting house. He has been a good fellow generally. He hasn't an innocent tooth, and in the past forty-five years of his life he hasn't had an ache or pain.

A party writing from Greenup, says: "Hon. Enoch Whitaker, of Mason County Committee of Railroads (Guarantee), has been here lately paying off claims for right of way. The matter is now fully settled, with but two or three exceptions, and no further trouble is now to be feared. The cold snap has about stopped all work on the railroad, the frost in the stone preventing all bridge work. Mr. Kelley fully expected to complete his contract on the Little Sandy bridge by the close of the year, but this cold weather will retard the work. The contractor for the culvert over Town Branch had placed in position a large amount of sandstone, which had been accepted by the section engineer, but on the arrival of Chief Engineer Childs, the whole was condemned and had to be taken out and replaced at the railroad's expense, and will require some time yet to finish the work."

CHEAP FUEL.

A Plan to Pipe Natural Gas from the Big Sandy Valley to Cincinnati.

Supplying the Cities along the R-R with the Great Factor in Modern Industries—A Fair Proposition.

Mr. I. Rignold, of Cincinnati, is a guest at the Central Hotel. Mr. Rignold represents a syndicate of capitalists of that city, who are engaged in perfecting a plan to pipe natural gas from the wonderful wells of the Big Sandy Valley down the Ohio river to the Queen City. A BUTLERMAN had a talk with Mr. Rignold this morning, who said: "The syndicate I represent was organized two years ago. About a year ago we bought the big gas wells at Warfield in Martin County which with that we had already purchased gave us about 45,000 acres of land in the Sandy Valley in this State and 10,000 in West Virginia. Our object is to pipe the gas to Cincinnati. The plan at first was to come down the Sandy Valley to Catlettsburg, thence down the river to Ashland, where we expected to cross to Ironton and Portsmouth, taking a direct route from the latter place. The route down the south-side of the Ohio, we have thought too expensive, owing to the greater distance. However, if we can get one hundred or one hundred and fifty subscribers here, we will come this way. We ask no money from your people. All we want is for them to use our fuel, which will be furnished at ten per cent less cost than they now pay for coal or wood.

"Our enterprise will not interfere at all with your gas companies, as we furnish fuel-gas only. In a conversation with a number of your leading citizens, they give me encouragement and think there will not be much trouble to secure the subscribers we ask. It has been fully demonstrated that natural gas is about the cheapest fuel known. With the fine water works, a understand, you people have and the railroad facilities that will be furnished by the completion of your new road, all that will then be needed to place Maysville on equal footing with other cities as manufacturing town, will be cheap fuel, and we will furnish that if you want it.

We already have contracts at Catlettsburg, Ashland, Ironton, Portsmouth, Cincinnati, Covington and Newport.

The two wells at Warfield are putting out 15,000 cubic feet a day, but we expect to increase the number of wells to twenty, so that we can have a supply of 100,000 cubic feet a day.

I will visit the people of Maysville in a day or so and solicit subscribers. The contract we ask of them has no catch in it. It is plain and to the point, and reads as follows:

In consideration that the Kentucky and Cincinnati Natural Gas Fuel Company, a corporation of the State of Kentucky, constructs a pipe line from their property situated in Martin County, State of Kentucky, so as to deliver natural gas in sufficient quantity and suitable quality for fuel purposes, in the city of Maysville, Mason County, State of Kentucky, within eighteen months from the date hereof, we, the undersigned, citizens of Maysville, do hereby agree to pay sufficient of said natural gas from said natural gas fuel company to meet all the fuel requirements in and about our several residences, stores, warehouses, factories and offices for a term of ten (10) years, at a price not to exceed ninety (90) per centum of our present fuel bills.

Die Deutsche Gesellschaft.

Die Deutsche Gesellschaft was re-organized last evening with about twenty-five members, including both ladies and gentlemen. Some very fine recitations were rendered—those especially by Misses Lloyd, Taylor, Lowry and Huwa. Most all the young men were new members, but nearly all participated in the exercises. Every one was pleased with the recitation of Herr Elmer Ambrose. Music occupied only a small portion of the programme. At a quarter to 10 o'clock, Herr Hoffsch invited the society to dine with him at the hotel. The invitation called for a hasty motion of adjournment, and but few were slow to accept. The following is a list of the members: Misses Alice Lloyd, Jennie Taylor, Cora Lowry, Fannie Howe, Carrie L. Rue, and Messrs. Howell Berkley, Hiram Chenoweth, Vachel Watson, George H. Martin, Edward Geisel, Harry Birkley, Jacob Brod, Jim Childs, Charles Daley, Benjamin Davis, George F. Barber, Elmer Ambrose, Hill Strode, Pearce Browning, William Trout and Henry Ray.
